SUMMARY

Motivated entry-level software developer with experience in software technical writing. Transitioning to a development career following intensive 1.5 years of software development training. Proficient in diverse programming languages and dedicated to creating efficient, user-focused solutions. Excited to contribute strong analytical skills, coding abilities, and a passion for innovation to a dynamic team.

STRENGTHS

◈ **Skilled Software Developer**
Completed full-stack web development program and intensive software development training

◈ **Strong Analytical Skills**
Capable of analyzing complex problems and creating user-focused solutions

◈ **Diverse Programming Skills**
Proficient in multiple programming languages and frameworks for front-end, back-end, and mobile apps

◈ **Passion for Innovation**
Excited to contribute coding abilities and a drive for innovation to a dynamic team

SKILLS

Front-end
HTML · JavaScript (ES6) · CSS · Reactjs · BootStrap · Angular · Redux · Typescript · jQuery

Back-end
NodeJS · node.js · Express.js · RESTful apis · JAVA · Maven · Spring Framework · AWS · npm

Databases
MySQL · DBMS · NoSQL(MongoDB) · PostgreSQL

PROJECTS

MyFlix   09/2023 - 12/2023

Developed a Movie Wiki web app, by collaborating with cross-functional teams, conceptualizing, designing, and implementing user feedback throughout the design and development phases using Agile methodology and MERN stack.
- **Technology Used:** HTML5, CSS3, JavaScript (ES6), React, Bootstrap, Parcel, NodeJS, Express, MongoDB, Heroku
- **React Live Demo :** https://gomyflix.netlify.app
- **Angular Live Demo**: https://gitashreemahato.github.io/myFlix-Angular-client/

Meet App   10/2023

Developed a serverless, progressive web app (PWA) using React, incorporating a test-driven development (TDD) approach. Built to seamlessly integrate with the Google Calendar API, the application retrieves and displays upcoming events, ensuring a robust and reliable user experience.
- **Technology Used:** ReactJS, React Testing Library, AWS Lambda, Serverless development, PWA, TDD approach, Google Calendar API
- **View project here:** https://gitashreemahato.github.io/Meet_App

Chatty App   11/2023

Developed a mobile chat application using React Native. The application offers users a seamless chat interface and facilitates the sharing of images and locations. Designed and programmed the application by iterating through the planning, development, and testing stages, employing React Native, and integrating essential features for a dynamic and user-friendly experience.
- **Technology Used**: React Native, Expo, Google Firestore Database, Google Firebase authentication, Firebase Cloud Storage, Gifted Chat library

Student Management System   09/2023

Programmed a Student Management System, leveraging my software development skills to establish a streamlined and efficient platform for handling student information. This comprehensive solution encompasses user authentication, enrollment tracking, and facilitates seamless collaboration among students.
- **Technology Used**: Java, JSP, HTML, CSS, MySQL, Tomcat Server

EDUCATION

Full Stack Web Development Program   07/2023 - 01/2024
CareerFoundry

Software Development course with Practical training   02/2022 - 06/2023
Java Development Training and Placement Institute

Bachelor in Electronics and Communication Engineering   07/2018 - 07/2021
Maulana Abul Kalam Azad University of Technology

Diploma in Electronics and Telecommunication   06/2015 - 06/2018
West bengal Sate Coulcil of Technical & Education

Bachelor of Science in Computer Science   08/2013 - 08/2016
West Bengal State University

EXPERIENCE

Career Transition
02/2022 - 01/2024

Hamburg

- Transitioning into a skilled Software Developer
- Completed 6 months of full stack software development training at Career Foundry, leading to an improvement in coding efficiency.
- Completed 12 months of software development training, covering core Java, SpringBoot, Spring MVC, JSP, Servlet, Tomcat and Fronted development with Databases at Java Development Training and Placement Institute (Bangalore, India)
- Achieved proficiency in software development through 18 months of rigorous training, resulting in a 25% improvement in coding efficiency through hands-on practice in diverse languages and frameworks

Technical Writer
03/2020 - 12/2022

Innovatia India Knowledge Management Services Pvt. Ltd
Bangalore

- Developed agile end-user documentation for telecom and networking products, meeting 100% delivery deadlines
- Collaborated with R&D and cross-functional teams, ensuring high-quality User Guides, CLI references, and Release Notes
- Managed documentation lifecycle of 5 different network products, mentored team members, and facilitated remote coordination for optimal results
